MOB LED BY WOMEN.

Riotous Demonstration in the Connellsville Coke Region.

SEVERAL DEATHS WILL FOLLOW

Five Men and Two Women Wounded on the Strikers' Side, and the Superintendent and Bookkeeper of the Works Badly Beaten—Almost a Riot in the Vanderbilt Region—Miners' Troubles Elsewhere.

SCOTSDALE, Pa., May 5.—A riot yesterday at the Painter works of the McClure Coke company, two miles from this place, resulted in the wounding of five men and two women on the strikers' side and serious injuries to Superintendent White and E. B. Roddy, the bookkeeper of the company. White and Roddy were terribly beaten by the mob and the latter is in a critical condition.

The battle yesterday was between striking Poles, a small number of deputies and a comparative few of the men at work at the Painter plant.

The Painter plant was closed down by the strikers on the 24th inst. and was idle until Wednesday of this week, when a start was made, and they have been doing a little work since that time. The superintendent, boss and store clerks have been acting as deputies, and were all armed with Winchester rifles. The men have not been interfering with those at work, but the women were determined to drive the workers out.

Early yesterday morning Joe Sconesky's wife went about to the Joe Sconesky's house and got the women of the striking Poles to join her in a proposed raid on the plant. About 6 o'clock she had 150 men, women and children in the ranks ready for a raid. The men remained in the rear and the women and children, led by Mrs. Sconesky, made a rush for the coke yard. This region has seen many savage affairs, in which women mixed themselves by deeds of cruel violence, but the old-timers say that never before has there been seen such a spectacle as this. Every person in the assaulting party had some sort of striking weapon; even the children, screaming shrilly, as they flourished sticks, suited to their size. Many of the women bore axes, and some of the mob carried ball bats and hatchets.

White and Roddy, assisted by a dozen of deputies stood guard, and when the mob came up with a rush White fired point blank into their ranks. A Hungarian woman fell with a bullet in her thigh. Maudened by this, the mob closed in on the deputies, who, driven into close quarters and blinded by the shower of missiles, were unable to use their Winchesters. After emptying their revolvers they fled and the mob surrounded White and Roddy. A burly Hun attacked the latter with a hatchet, felling him to the ground, and was about to deal the death blow when James Tarr knocked the Hun down with a club.

In the face of the fearful odds these two men sprang to his rescue and fought their way to his side. Then the frantic raiders fell upon Tarr and Roddy as White struggled to his feet blinded with blood. The three men fought desperately, but the odds were too great, and finally all were down again, under the feet of the mob. Roddy was beaten and cut about the head almost as badly as White.

By this time the deputies rallied and three volleys were fired in quick succession, forcing the mob to retreat over the hill in utter rout. A number of strikers were carried from the battlefield and it is believed they were killed. Three of them were left near the works. One of these was shot through the thigh, another through both legs and the third had a bad wound in the groin.

White is in the miners' hospital at Connellsville. The latest reports are that the chances of recovery do not equal the chances that he will die. Roddy was brought to his home here. He is vomiting blood and is very badly injured. Two of the Poles shot in the neck are pronounced by their physician to be in a dangerous condition and are likely to die.

Sixty-three miners, among them 12 women and 10 children, have been taken to jail and warrants for 59 others have been sworn out, but the men can not be found. The Painter plant is in charge of a large number of deputies, and the company is determined to operate it.

ON THE EVE OF A RIOT.

Prompt Action Alone Prevents a Bloody Conflict.

CONNELLSVILLE, Pa., May 5.—The prompt action of coal companies in arming a large force of men at the works in the Vanderbilt region prevented a riot there yesterday. The mob that closed down the Fort Hill works Thursday remained in camp all night preparing to attack the Paul & Nollie works, but when they learned that an army of deputies was patrolling the works they concluded to delay the attack and dispersed. The leaders say the strikers will assemble again as soon as the deputies are withdrawn. The strikers have adopted a code of signals by which they can be collected at any point in that vicinity on short notice, but the operators say they will keep the deputies on guard as long as there is any danger of violence.

The men at Fort Hill who were forced out returned to work immediately after the mob had dispersed, and are working under the protection of 50 Winchesters. The formidable display of Winchesters at Moyer also discouraged the mob of strikers there, and they dispersed at midnight. The leaders had promised to remain in camp till the Moyer plant closed down, but they knew a conflict with the deputies, numbering 80, would prove disastrous and concluded to wait.

At no time since the strike was inau-

guished has violence been so imminent as at present. The wholesale overtions contemplated next week, and the attempt by the leading companies to resume on Monday are sure to result in violence. The leading companies say they will start unless the Rahney works are closed down at once. Rahney is securing all the large contracts at handsome figures, and the other companies will not stand idly by and see themselves ruled out of the market. Two of the leading companies announce that they will start up all their works if in doing so they have to deputize half their men and ask for protection from the state troops.

A number of deputies were sent to the Calumet works yesterday. There is every indication of trouble there and at Mammoth. Miners from Latrobe and other places gathered there and camped on the hillside. During the day they paraded to and fro past the works at Mammoth. The red flag was prominently displayed and incendiary threats were uttered. The mines in this locality are ruining, but not full.

IT MAY NOT BE SETTLED.

The Pittsburg Conference Only a Step Toward Settling the Strike.

COLUMBUS, O., May 5.—President John McBride and Secretary P. A. McBryde have returned from Pittsburg. They do not regard the work done in the Pittsburg conference as meaning a settlement of the strike. "It is only a step in that direction," said P. A. McBryde. "Everything is satisfactory to us so far, but the settlement is yet to be made."

Much depends upon whether the operators will be fully represented in the Cleveland convention. The operators who engineered the meeting at Pittsburg, believe they will secure the cooperation of the whole body of bituminous mine operators. From now until the day of the convention they will exert all their power to bring them into line. The miners will not enter with them unless the operators can show that they are delegated to speak for all the operators of the bituminous fields.

President John McBride is at work now preparing an official call of his own to the miners, asking them to elect delegates to the Cleveland convention. This will be issued and mailed at once.

The operators here regard the Pittsburg meeting as the sure harbinger of an early settlement of the strike. One prominent operator said that the 1st of June would see all the miners at work, and he thought they would go to work before that. The coal roads have practically nothing to do now, and they are urging a settlement.

ATTEMPTED LYNCHING.

A Slight Disturbance Results in a Fatal Shooting.

DULUTH, May 5.—Marshal A. Free tried to suppress a slight disturbance among some striking miners at Mountain Iron yesterday evening, when Mat Matson threatened him with a revolver. Free promptly shot him twice in the abdomen and he will probably die.

Word of the affair was sent to the strikers at Virginia, and a mob of 1,200 started for Mountain Iron with the avowed intention of lynching Free. Sheriff Showey ordered the militia out, and they took charge of Free and removed him from the town.

Company H was then called and the additional force of militiamen reached Mountain Iron ahead of the mob. Up to that time no trouble had occurred, but now the wires are down completely, and it is impossible to learn whether or not rioting is in progress.

The men at the Oliver mine and at Drake and Stratton's went to work under protection yesterday. The strikers are ugly and are restless. They are mostly Finlanders and a desperate set. If they start a fight it will be a bloody one.

BENEFITS OF THE STRIKE.

Hungarians Getting Disgusted and Going Back Home.

PITTSBURG, May 5.—The entire plant of the Carrie furnaces, at Keating, Pa., has closed down as the result of the strike of the coal miners. The plant employs about 100 men, and is the most important of the Rankin industries.

One of the peculiar features of the shutdown is the action of the Huns. Many of them were idle a greater part of the past year, and as they were gradually dispensed with the last few days and noted the preparations made for an indefinite suspension, they began to think that the country was "no good" any more, and decided to return to the old country. Nearly 200 left for New York to wait for a European bound vessel, and 150 are arranging to leave.

Miners Forced to Suspend Work.

PEORIA, Ill., May 5.—Eight hundred coal miners, headed by a brass band and a drum corps, paraded yesterday afternoon the streets around the courthouse square on their way to Two Mines, in Tazewell county, to force the operators to quit work. The men organized at Bartonville, chose leaders, and first visited the Collier mine which has been running since the strike began. Here the miners refused to quit, but when the strikers got demonstrative agreed to suspend until further notice. There was no trouble, though matters were very threatening for a few minutes. All the strikers are armed with big clubs and intend to carry their point.

All Closed But One.

MACON, Mo., May 5.—After having succeeded in persuading the Ardmore miners to suspend work, the Bevier delegation started for the Kansas and Texas mine No. 48 to endeavor to get the Alabama negroes there to quit work. The crusaders have requested the sheriff to accompany them as an evidence that they do not wish to raise a disturbance. If they succeed in stopping work at No. 48 this will close every important mine in the county. The works at No. 2, a mine west of Bevier, were burned during

the night, but there is no theory as to the origin of the fire.

Trouble Feared in the Indian Territory.

DENISON, Tex., May 5.—The miners in the Indian Territory, who number 3,000, have been on a strike several weeks. They have been peaceful and quiet until within the past few days. No serious trouble is apprehended. The strikers are getting ugly and making demonstrations which have necessitated the calling out of the entire Indian police force. If any attempt is made to introduce outsiders and nonunion men, riot and bloodshed is sure to follow.

Strikers Gaining Ground.

ASHLAND, Ky., May 5.—The strikers are gaining ground here now, the men leaving the Ashland coal and iron railway mine at Grant yesterday, and the Carter county men are still out. The miners at Rush, the other and largest Ashland coal and iron mine will, in mass meeting this evening, decide what they will do. They have nothing to gain, and if they come out it will be purely for sympathy with the others.

Six Mines Running in Illinois.

ST. LOUIS, May 5.—The reports received from the mining districts of Illinois in the vicinity of this city show that but six mines are now being operated. The crusade of the strikers will be continued.

One Hundred More Out.

LITCHFIELD, Ill., May 5.—All the miners, about 100 in number, employed by the Litchfield Mining and Mercantile company in this city, went out on a strike yesterday.

RIVER AND HARBOR BILL PASSED.

Another Appropriation Measure Disposed of by the House.

WASHINGTON, May 5.—Promptly after the reading of the journal the speaker laid some bills from the senate before the house. Then, on motion of Mr. Catchings, the house went into committee of the whole for the purpose of considering the river and harbor bill (Mr. Hatch in the chair).

The appropriation for the outer harbor at Michigan City, Mich., was reduced from \$10,000 to \$11,000, and the sum taken from this appropriation was added to the appropriation for the interior harbor at the same point, making it \$10,000.

Mr. Boen (Pop., Minn.) offered an amendment appropriating \$10,000 for a survey of the Red River of the North, which was defeated.

An amendment was agreed to appropriating \$5,000 for the rectification of the channel of the White river in Arkansas.

Mr. Ellis offered an amendment increasing the appropriation for rebuilding lock No. 2 in Green river, Ky., from \$35,000 to \$103,000.

Mr. Walker (Rep., Mass.) and Mr. McCreary (Dem., Ky.) got into a tariff discussion, in which each charged the other with knowing nothing about the tariff question. The chairman finally called them both to order with the remark that members seemed to forget that it was the river and harbor bill that was being discussed and not the tariff bill.

At 10 minutes before the usual time for taking a recess Mr. Catchings asked unanimous consent that the house should continue in session after 5 o'clock for the purpose of completing the consideration of the river and harbor bill, when he would ask that when the house adjourned it would be until Monday. This was agreed to and the consideration of the bill was resumed.

The consideration of the bill without action being taken on any further amendments was continued until after 6 when the committee of the whole rose, reported the bill to the house and it was passed. Thereupon a recess was taken until 8 o'clock for the consideration of private pension bills.

In the Senate.

WASHINGTON, May 5.—The open session of the senate lasted only until 2 o'clock. The time was consumed entirely by Mr. Quay, who gave another chapter of his serial speech on the tariff. Mr. Gallinger remained by his side constantly, relieving the Pennsylvania at frequent intervals by reading such extracts as Mr. Quay desired to insert in his remarks. The balance of the day after 3 o'clock was spent behind closed doors considering executive business. At 5:30 p. m. the senate adjourned.

Tariff Debate Postponed.

WASHINGTON, May 5.—It has been arranged that the tariff debate shall be adjourned until Tuesday, the interval being spent by the senate in executive business. Neither Democrats nor Republicans care to debate the bill until it is placed before the senate in the form contemplated by the caucus agreement.

Texas Bankrupt.

AUSTIN, May 5.—The treasury of Texas is without a dollar, a condition of affairs that has not existed for 20 years, during which time its revenue balance has ranged annually from \$1,000,000 to \$3,000,000. Before the end of the year there will be a deficiency of several hundred thousand dollars and it is doubtful if the state will be able to meet the interest on its bonds, amounting to \$4,000,000.

Kentucky Forest Fires.

ENTERPRISE, Ky., May 5.—Forest fires are raging throughout this section with very devastating results. W. H. Griffey lost 3,000 fence rails, A. M. Shay 1,000 and E. Underwood 1,500. The miners are out fighting the fire. R. M. Griffey barely escaped with his life.

Ordered His Coffin.

JEFFERSONVILLE, Ind., May 5.—James McKee, a carpenter, went to Ogdin Bamber's undertaking establishment and ordered his own coffin, saying that he had only a few minutes to live. At last accounts, however, he was still alive.

COMMONWEAL NEWS.

Coxey Arraigned in the Washington Police Court.

BROWNE AND JONES WITH HIM.

A Plea of Unconstitutionality of the Capital Act Overruled by Justice Miller—A Special Trial Is Also Denied the Chief. Progress Made by the Approaching Armies.

WASHINGTON, May 5.—Another opportunity was afforded the commonweal leaders to exploit themselves before the public yesterday in the police court proceedings against the leaders, Jacob S. Coxey and his lieutenants, Carl Browne and Christopher Columbus Jones.

Marshal Carl Browne took advantage of the occasion to swagger about in his buckskin apparel and once put in a word of comment regarding the proceedings. Judge Miller, who is a hard-headed magistrate, exhibits a tendency to treat the titled commonwealers like other defendants and threaten to have the marshal consigned to the dock.

There was an audience gathered which filled the courtroom and included most of the Populist leaders as well as other members of congress. Senator Allen, while disclaiming sympathy with what he called the visionary ideas of Coxey, made a strong plea for the constitutional rights of citizens to peaceably assemble and petition congress.

Justice Miller, after arguments closed, overruled the objections of counsel for defense to the information, the judge holding that the Capitol grounds act was constitutional. He also denied Coxey a special trial.

The defendants were represented by three attorneys, Representative Late Pence of Colorado, ex-Assistant District Attorney A. A. Lipscomb of Washington, and a young and inexperienced lawyer named Hyman.

A recess was then taken to allow a jury to be impaneled. Then the trial of the three defendants, Coxey, Browne and Jones proceeded. The proceedings were pervaded with good nature and informality. Once Representative Van Voorhis of New York interjected a speech, although he had no particular connection with the case, and it was difficult to tell who were the actual participants.

Major Moore, the chief of police, in his testimony, repeated the conversation with Coxey on April 30, when the general asserted his intention of carrying out the program of speaking from the Capitol steps. Mr. Lipscomb endeavored to show by the major that the Capitol grounds had often been used for purposes such as Mr. Coxey endeavored to carry out, but was overruled.

Affairs of the Camp.

WASHINGTON, May 5.—The frequent showers of rain that fell here yesterday dampened to a considerable extent the ardor and enthusiasm of the army of the commonweal. The men are not adequately protected against the weather and present a very forlorn and dejected appearance. The rations furnished are simple and limited. The feeding of 500 and more men, besides a number of horses, requires considerable activity on the part of those in charge of the commissary department. Affairs at the camp are quiet and the men show no outward sign of dissatisfaction.

DOWNCAST AND DISHEARTENED.

Kelly's Army Still in Des Moines With No Prospect of Getting Out.

DES MOINES, May 5.—The effect of the discouraging outlook for Kelly's industrial has made itself manifest in the army and the men are downcast and disheartened. There were no songs over campfires, no shouting of "On to Washington," and no cheers for officers and visitors. The prime cause of the general depression was the continued scarcity of provisions.

The people who have been supplying the army with food are becoming disgusted. The men have made no attempt to keep the camp clean and it is now in a disgusting state, so much so that there is apprehension of the outbreak of disease.

At a conference last night the plan of building flat oats and floating down the Des Moines river to the Mississippi near Keokuk, was seriously discussed by Kelly and his advisers. The matter will be further considered and finally acted upon.

RANDALL'S RAID.

He Marches Around Valparaiso but Is Provided With Food.

VALPARAISO, Ind., May 5.—General Randall arrived at Hobart with his army at 10 o'clock. The army proceeded to confiscate all the bread and crackers in town and there was considerable rioting in the ranks.

The resolutions passed by Valparaiso citizens demanding that Randall's army be prohibited from this city were handed to Randall, and he agreed to pass around the city, and the committee in return will furnish enough provisions to last him over Sunday. The state board of health has notified the county physician to vaccinate every member of the army, as it had just marched through a district infected with smallpox.

Prepared For Them.

SEATTLE, Wash., May 5.—Governor McGraw, after being notified that the industrial army under General Cantwell had seized a Northern Pacific train, said the road was in the hands of the United States court and the federal government was fully prepared to cope with the difficulty. He refused to take any action as to the train, but said that if any part of the army remained at Puyallup he should deal with any emergency as might arise.

INCOME TAX AMENDMENTS.

The Object Is to Relieve Individual Investors in Corporations.

WASHINGTON, May 5.—Senator Vest has offered amendments to the tariff income tax bill, providing for a change in the income tax feature of the bill. It does not change the tax of 2 per cent nor the amount at which incomes should be subject to tax, leaving it at \$1,000 and upwards. The object of the amendments is to relieve individual investors in corporations of the charge where their net incomes do not exceed \$1,000, but to have the profits of the corporation taxed. It is also proposed to eliminate the inquisitorial features of the income tax. Instead of compelling the individual to exhibit his books and papers, the assessor may estimate the amount of the income, and the person so assessed may appear and prove that he has been assessed too high if such is the case.

The changes in detail are Sections 59, 60 and 61 are stricken out and the following section substituted therefor:

That there shall be levied and collected a tax of 2 per cent per annum on the net profits or income above ordinary working or operating expenses of all banks, banking institutions, trust companies, savings institutions, fire, marine, life and other insurance companies, railroad, canal, turnpike, canal navigation, stock water, telephone, telegraph, express, electric light, gas, water, street railway companies and all other corporations, companies or associations doing business for profit in the United States, no matter how created and organized. That said tax shall be paid on or before the first day of July in each year, and if the president or other chief officer of any corporation, company or association shall neglect or refuse to file with the collector of internal revenue district in which said corporation, company or association shall be located or engaged in business, a statement verified by his oath or affirmation showing the amount of net profits or income received by said corporation, company or association during the whole calendar year preceding the date of filing said statement as hereinafter required, the corporation, company or association on making default shall forfeit as a penalty the sum of \$1,000 and 10 per cent of the amount of taxes due for each month until the same is paid; the payment of said penalty to be enforced as provided in other cases of neglect and refusal to pay penalties, and taxes under the internal revenue laws. The net profits or income of all corporations, companies or associations shall include the amounts paid to shareholders and bondholders or holders of certificates of indebtedness of any kind or carried to the account of any fund or used for construction, enlargement of plant, or any other expenditure or investment representing the net annual profits made or acquired by said corporation, company or association. That nothing herein shall apply to states, counties or municipalities; nor to corporations, companies or associations organized and conducted solely for charitable, religious or educational purposes; nor to the stocks, shares, funds or securities held by any fiduciary or trustee for charitable, religious or educational purpose; nor to such building and loan associations as are organized under the laws of any state or territory or of the District of Columbia which make loans to their shareholders to enable them to provide for themselves homes.

The above is substituted for Sections 59, 60 and 61 of the tariff bill in which Section 59 provided for levying 2 per cent on banking and like corporations. Section 60 provided how the tax on such institutions should be levied and collected. Section 61 provided for the 2 per cent tax upon the interest of stocks, dividends or profits of railroad, telephone, gas and like corporations, and provided how it shall be collected.

A Troublesome Pest.

TEFFIN, O., May 5.—Farmers in Seneca county are alarmed over the ravages of a new pest, a small, green worm, less than a half inch in length, which eats the leaves and stalks of clover down to the roots, leaving the ground bare. Edward H. Swander, D. M. Neikirk and Leander Finch, who reside just east of this city, have noticed the ravages of the pest, and observed that it acts very much like the well known army worm. Some of the farmers are resorting to spraying their fields of clover to protect it from the ravages of the worm.

Negro Stretches Hemp.

JEFFERSON CITY, Mo., May 5.—Jake Brown, alias John Coleman, colored, was hanged here yesterday for the murder of Frank Mackin, a foreman in one of the penitentiary shops. Coleman came from Memphis, and during his fourth term in the Missouri prison, on Aug. 1, 1892, stabbed Mackin 10 times, killing him. Death to the murderer came from a broken neck.

The Cleveland Situation.

CLEVELAND, May 5.—Work was resumed on a dozen public improvements yesterday and the shops that were looted Wednesday are running full blast. Protection is assured for every man who cares to work. The least attempt to provoke a riot means arrest, and Cleveland is policed as never before. Men are massed at the Central station in large numbers.

Fire Bugs' Work.

WINCHESTER, O., May 5.—A large barn and contents belonging to Frank Menasse, living about two miles west of this place, was entirely destroyed by fire. About 1,000 pounds of tobacco and some grain were destroyed. Loss, \$800; insurance, \$300. It is thought to be the work of incendiaries, as the owner does not live near the barn.

Mills Starting Up.

JOHNSTOWN, Pa., May 5.—Next Monday morning many departments of the Cambria Iron company, now idle, will resume operations. Orders have been received which warrant such resumption. The works are expected to run quite full, and if such is the case, nearly 5,000 men will be employed.

King Solomon offered sacrifices unto "Ashtoreth, the goddess of the Sidonians, and Milcom, the abomination of the Ammonites," and "built a high place for Chemosh, the abomination of Moab, and for Molech, the abomination of the children of Ammon"—I. Kings. xii:26, 28. Of the thirty-seven kings of Israel and Judah, beginning with Saul and ending with Josiah, thirty-one were open worshippers of other gods than Jehovah. When we read of the worship of the golden calf in the wilderness, in the time of Aaron, we are apt to think this a solitary instance in Hebrew history; but the truth seems to be that this form of worship was practiced as late as the time of Jeroboam—I Kings xii:26, 28. The facts seem to be that polytheism and the use of images were not finally outgrown, and that the religion of Israel did not become permanently monotheistic until the period of the Exile, 586, B. C. Jeremiah could say to his contemporaries, without the fear of contradiction, "According to the numbers of thy cities are thy gods, O Judah." E. B. CAKE, Minister.

The Old Friend

And the best friend that never fails you is Simmons Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

PUBLIC ROADS.

A Summary of the New Law on This Important Subject.

The Fiscal Court Has General Charge and Supervision of Such Roads and Passways.

An adjourned meeting of the Fiscal Court will be held Monday to hear the report of the committee appointed to prepare rules and resolutions in regard to the public road system of the county and take steps to carry out the new law on this subject.

The new law was approved March 10th. Sections 1 to 15, inclusive, relate to the opening, discontinuing or changing of roads, or erecting gates on such highways, specifying in detail the necessary proceedings and where they shall be prosecuted.

Section 16 is one of the important sections of the act. It says that the owners of the stock of any turnpike, plank, gravel, or other road may, at any time, surrender to the Fiscal Court of the county the right to use, occupy, repair and control the same as a public road, and thereupon said court may immediately take charge of said road, which shall become a part of the public road system of the county.

Section 19 gives the County Judge, upon information from the Supervisor or overseer, to compel owners of land to construct ditches, or clean out ditches, branches and creeks, or straighten, widen or open same where necessary to carry off water from any part of a public road. If land owners refuse to do anything of this kind when ordered, the court may have it done at the expense of the owner.

The Fiscal Court of a county is given general charge and supervision of the public roads and bridges therein, and shall prescribe rules and regulations for repairing and keeping the same in order and for the proper management of same.

The public roads shall be maintained either by taxation or by hands allotted to work thereon, in the discretion of the Fiscal Court.

The Fiscal Court is given full power to levy an ad valorem tax for road and bridge purposes of not exceeding 25 cents per year on each \$100, and also a per capita tax not exceeding \$1 on each male citizen of the county liable to work on roads, between eighteen and fifty years of age. Said tax to be collected as other county revenue is collected.

The Fiscal Court may require all able-bodied male citizens over eighteen and under fifty years of age, except licensed ministers of the Gospel and citizens of incorporated towns and cities, to provide themselves with tools and implements and to work on the public roads of the county not exceeding two days in a week, and six days in each year. In cases of unusual emergency, said road hands may be required to work a greater number of days in a week or year. Any such citizen may furnish an able-bodied substitute to work in his place. A day's work for such hands shall be eight hours. The Fiscal Court, in its discretion, may pay the hands so ordered to work a reasonable compensation per day. The penalty for failure to work when so ordered is a fine of \$2.50 a day, said fines to be used for road purposes.

The County Judge is given power to divide his county into road precincts, fix the boundaries of same and allot the able-bodied male citizens within said boundary, within the ages specified, to work in their respective precincts. He shall appoint an overseer for each precinct, who shall be a resident of the precinct and whose term of office shall be two years. Overseers shall be exempt from service on juries and from poll-tax for road and bridge purposes. In counties where roads are worked by hands overseers shall have charge of the roads and bridges in their precincts, and see that they are worked and kept in repair and free of obstructions. In counties where the roads are worked by taxation, overseers shall assist the Supervisor, if there be one, in looking after the roads. In counties where the roads are worked by taxation, the Fiscal Court may, every two years, appoint a Supervisor of Roads in and for the county.

Section 36 says that all male persons confined in a county jail or work-house, under judgment of a court directing that they may be worked at hard labor, shall be available to the Supervisor or overseers, for the purpose of working them on the public highways.

Any corporation, company or individual who may, by unusual use of a road, materially damage same, shall repair all such damages.

Supervisors or overseers, when directed by the County Court, shall keep an index erected at the forks or crossings of roads, on which shall be inscribed in plain letters the name of and distance to the most noted place or places to which each road leads.

Owners or occupants of ferries shall

keep the roads leading to and from same in repair between high and low water marks.

Section 46 makes it unlawful for the County Judge, any Justice of the Peace, Sheriff or tax collector, County Attorney, Supervisor, Assistant Supervisor or any overseer to become interested in any contract for working roads or building or repairing bridges.

The penalty for wilfully obstructing, injuring or destroying public roads or bridges, index or finger boards, or any culvert or ditches, is fixed at from \$5 to \$50. A like penalty is provided for wilfully injuring any tools or implements, or taking possession or appropriating same.

The Fiscal Court may provide for procuring, planting, protecting and caring for shade trees along public roads, and it is made unlawful to injure such trees.

The court may also establish wells or cisterns on the public roads at such points as may be deemed necessary.

BRUCE and Arthur Kenney, of Salt Well, Nicholas County, got into a quarrel a few days ago, which resulted in the fracturing of Arthur's skull. He was hit on the head with a rock.

GABLE Bros. will fit up the front portion of the old warehouse at the southeast corner of Second and Short streets for a coal office, and will tear the rest of the building away and convert the lot into a coal yard.

JOSEPH HEISER Post No 13 will meet at G. A. R. Hall in Cox Building to-morrow afternoon at 1 o'clock to attend the funeral of their comrade, the late James D. Gunn, which will occur at 2 o'clock at the First Presbyterian Church.

WEATHER-PROPHET HICKS says: "May is comparatively free from disturbing causes this year, exciting the belief and hope that storms will fall to the minimum in number and violence, and that it will prove propitious to all interests."

JESSAMINE COUNTY Democrats have renominated Hon. W. H. Phillips for County Judge. He is the father of Dr. Phillips, of this city, and this term will make twenty-eight successive years he has served his county as Judge. Few men in Kentucky or anywhere else have such an enviable record.

TERRIBLY MAIMED.

A Young Maysvillian Meets With an Accident That Will Probably Prove Fatal.

George Pepper, of this city, met with a horrible accident on the C. and O. Friday morning at Stepstone, Bracken County.

He was run down by a train and was badly mangled and maimed. Both of his legs were severed above the knees and his right arm was taken off close to the shoulder.

The crew of the the train placed the unfortunate young man in a coach and took him to St. Elizabeth Hospital, Covington, where Dr. Kearns dressed his injuries. The physician is of the opinion that Pepper can not recover.

Pepper is nineteen years old and is a son of Peter Pepper.

ICESTORM IN KANSAS.

A Cloudburst Freezes While Falling to the Earth.

UNPARALLELED CATASTROPHE.

It is impossible to even estimate the amount of damage done, but many reports have been received to the effect that many persons have been injured by the torrents of ice and water.

TOPEKA, May 5.—A special to The Capital from Reading, Kan., says: The central portion of Lyon county and the southern section of Osage county was visited by a terrible storm last night. A waterspout broke, flooding the country and ruining crops.

The devastation of the water was increased by an unparalleled icestorm. Ice formed as it fell 12 inches in circumference that killed cattle and ruined crops. In this town every windowpane was shattered, and the same destruction is reported from Olivet, east of here, in Osage county.

It is impossible to even estimate the amount of damage done, but many reports have been received to the effect that many persons have been injured by the torrents of ice and water and falling buildings.

A dispatch from W. H. Severy of Reading, received by The Capital, confirms the report that the storm was a most disastrous one, although no particulars can be learned.

ENCOURAGING.

H. G. Dun & Company's Weekly Report on the Condition of Business.

NEW YORK, May 5.—R. G. Dun & Company's weekly review of trade says: The point of encouragement is the heavy buying of wool, amounting to 6,492,600 pounds for the week at three chief markets, against 4,661,000 last year, and in April sales were 21,838,953 pounds, against 16,990,950 last year. As these sales have for years been in steady relation to the entire consumption of wool, it is fair to infer that in spite of the stoppage of some important works, and in spite of uncertainties as to labor and as to legislation, consumption will continue large for some weeks at least.

The enormous unsold stocks of wheat, which has made a lower average of prices in February, March and April than was ever known in any previous months, has depressed May wheat to the lowest point on record, although western receipts were only 1,080,736 bushels, against 2,488,050 last year, and Atlantic exports 1,143,285, against 1,513,910 last year. The decline for spot has been slight, with no change for July. Corn yielded a quarter, exports falling suddenly below, while western receipts nearly doubled last year's, and pork products were lower. Cotton speculators, who have seen larger receipts from plantations in April than a year ago, have lost faith and grip with favoring accounts of acreage planted, and the price declined an eighth.

The most encouraging sign is the marked decrease in liabilities of firms failing, which were only \$1,416,144 for the last week of April, and for two weeks \$3,722,703, of which \$3,722,220 were of manufacturing and \$4,614,367 of trading concerns. The amount of liabilities at the south was \$2,919,419, against \$3,111,032 in eastern and \$2,692,237 in western states. The failures this week have been 233 in the United States, against 216 last year, and 35 in Canada, against 27 last year.

Excitement Over Dastardly Outrages.

PRINCETON, Ky., May 5.—W. C. Parker, leader of a gang of counterfeiters, was arrested at Salem, Ky., a few days ago. Two merchants named Boyd and Kappeler furnished information against him. That night Boyd's store, with the postoffice, was burned. The next night Frank Wyatt's stable with eight head of horses was burned and last night a plot to blow up Kappeler's store was frustrated. Intense excitement prevails and the town is under police surveillance.

Bloodshed Feared.

ALBUQUERQUE, N. M., May 5.—Judge Hunt arrived in this city yesterday and states that Colonel T. F. Moon and three others called at his ferry across the Rio Grande, at Cochiti, late Tuesday afternoon and ordered him and his partner, at the point of revolvers, to leave. Colonel Moon has a ferry to the Cochiti mines, above the Hunt ferry, and is jealous over the latter's success. Bloodshed is feared.

Bank Suspends.

SEDALIA, Mo., May 5.—The First National bank of this city, one of the oldest financial institutions in central Missouri, failed to open its doors for business Friday. A notice signed by the officers and directors was posted on the door notifying depositors of the suspension.

Ruin Down by a Train.

WATERTOWN, N. Y., May 5.—Yesterday Hug McCormick, aged 75 years, and his grandson, 2 years old, were struck and instantly killed by a railway train near Brownville. McCormick had the boy in his arms carrying him over the track when the train struck him.

Storm in Missouri.

JOPLIN, Mo., May 5.—The most destructive storm of wind and hail of late years visited Joplin yesterday afternoon. Torrents of water swept along the waterways and flooded low lying districts. The hail did much damage to greenhouses, gardens and trees.

Found Drowned.

DAYTON, O., May 5.—The body of Peter McKenna, aged 61, of Company C, Eleventh Pennsylvania, was found floating in the big lake at the soldiers' home. He had been missing since election day.

Another Oil Gusher.

CELINA, O., May 5.—Great excitement prevails in this city over the drilling in of an oil well north of town on the Henry Berry farm, that is supposed to be good for about 200 barrels per day.

Lamp Wicks of Clay.

Scientific American: "A lamp wick has been invented which is made entirely of clay, and claimed to give 25 per cent. more light than the cotton wick. It is made capillary by incorporating with the clay, while in a plastic state, filaments of unspun vegetable fiber, which are burned out in the process of baking. The object is to provide an indestructible wick, which shall possess all the advantageous qualities of an ordinary cotton or fiber wick, and which shall, in addition, last an indefinite time without renewal or necessity of trimming or care. When the clay is baked the vegetable fiber is burned out, leaving capillary tubes running longitudinally through the wick, through which the oil from the lamp will be raised to the flame by capillary attraction. Owing to the perfect combustion of the wick the flame is perfectly white in character, devoid of odor and smokeless. It is found, through a practical test, that oil is volatilized by the use of this wick and the vapor is consumed, thus giving the above results."

Huge Silver Nugget.

ASPEN, Colo., May 5.—A silver nugget weighing 3,330 pounds and worth \$25,000, has been hoisted out of the Smuggler mine. There is a large amount of such rich ore in sight in this mine, but the owners are taking out but little on account of the low price of silver.

Price of Nails.

CLEVELAND, May 5.—The leading nail manufacturers of the country met at the Weddell house. One object, as stated by one of the delegates, is to raise the price of nails.

Cold Wave in Scotland.

LONDON, May 5.—A cold wave has spread over Scotland and the district of Yorkshire. It is snowing hard and the cold is intense.

Phones at Reduced Rates.

TOLEDO, May 5.—The committee of the city council granted a franchise to a new telephone company which will reduce the rent of phones one-half.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
